

Sunday, 16 August, 2015							
Registration desk open from 18:30-20:30							
19:00	Reception and Welcome by Professor Sir Timothy O'Shea, Principal of the University of Edinburgh (-22:00)						
Monday, 17 August, 2015							
Registration desk open from 08:30							
09:00	Introduction (Room G.07)						
09:10	Invited Speaker (Room G.07)  Chair: Simone Fischer-Hübner	Melek Önen, EURECOM	Privacy and Verifiability for Data Storage in Cloud Computing				
10:10	Coffee break						
10:30	Sessions 1+2	S1 (Room G.07): Workshop A4Cloud		S2 (Room 4.31/4.33): Measuring Privacy and Understanding Risks Chair: Mark Hartswood			
		Carmen Fernandez-Gago, University of Malaga // Siani Pearson/Michela D'Errico, HP Labs // Melek Önen, EURECOM // Tobias Pulls, Karlstad University	Workshop "A4Cloud Tools: Accountability in the Cloud"	Sushant Agarwal and Sarah Spiekermann	Developing a Structured Metric to Measure Privacy Risk in Privacy Impact Assessments		
				Wolfgang Coy	"This is obvious, isn't it?" – Discourses as Good Practice in Informatics and Computer Science Education		
12:30	Lunch						
13:30	Sessions 3+4	S3 (Room G.07): Workshop PRISMACLOUD I		S4 (Room 4.31/4.33): Future of Privacy and Data Protection Regulation Chair: Charles Raab			

		Alaa Alaqra/Simone Fischer-Hübner, Karlsruher Universität // Thomas Groß, Newcastle University // Thomas Lorünser, Austrian Institute of Technology // Daniel Slamanig, Graz University of Technology	PRISMACLOUD Workshop: "Interactive Workshop: How can we trust Crypto to protect privacy in the Cloud"	Hannah Obersteller	Yankee Go Home 2.0 - Can Europe Shut Down Facebook?		
				Bruno Bioni	Prize Norms and Functional Perspective of Law: A New Normative Production to Foster a Holistic Privacy Regulation		
				Murat Karaboga	Introducing the advocacy coalition framework as a Policy-Analysis Approach to grasp the complex reality of European Data Protection Politics: the example of the proposed General Data Protection Regulation		
15:30	Coffee break						
16:00	Invited Speaker (Room G.07)  Chair: Charles Raab	Timothy Edgar, Brown University	The US Privacy Perspective				
17:00	Wrapping up; in Memoriam Caspar Bowden and Klaus Brunnstein -17:45 (Room G.07)						
Tuesday, 18 August, 2015							
09:00	Invited Speaker (Room G.07)  Chair: Diane Whitehouse	Gabriela Barrantes, Universidad de Costa Rica	Communicating privacy issues to the general population – hands-on education campaigns				

10:00	Coffee break					
10:30	Sessions 5+6	S5 (Room G.07): Cloud Computing Chair: Meiko Jensen		S6 (Room 4.31/4.33): Hands-on Tutorial		
		Xenofon Kontargyris	The 'right to be forgotten' in an IT environment dominated by cloud technologies - How realistic is CJEU's approach on the protection of privacy in an online world increasingly based on cloud applications?	Kami Vaniea	Hands-on tutorial "Online data collection (without you knowing it)"  * Participants are encouraged to bring their laptops. * This tutorial will look at how data is collected online and used by various groups such as Data Aggregators. We will be using tools such as LightBeam and Panopticlick to visualize data flows. We will also be discussing technological, policy, and educational approaches to managing online data collection.	
		Saul Formoso and Massimo Felici	Security and Privacy Assurance in Cloud Ecosystems			
		Michela D'Errico and Siani Pearson	Enhanced Assurance about Cloud Service Provision Promises			
12:30	Lunch					
13:30	Sessions 7+8	S7 (Room G.07): Workshop PRISMACLOUD II		S8 (Room 4.31/4.33): Engineering Privacy Chair: Jaap-Henk Hoepman		
		Alaa Alaqra/Simone Fischer-Hübner,	PRISMACLOUD Workshop:	Ali Padyab	A review of Privacy Enhancing Tools	

		Karlstad University // Thomas Groß, Newcastle University // Thomas Lorünser, Austrian Institute of Technology // Daniel Slamanig, Graz University of Technology	"Signatures for Trust and Accountability in the Cloud: A Technical and User Perspective"	Olha Drozd	Privacy Pattern Catalog: A Tool for Integrating Privacy Principles of ISO/IEC 29100 into Software Development Process		
				Tom Seymoens, Laurence Claeys, and Jo Pierson	Case Study of Privacy Engineering: The USEMP Project		
15:30	Coffee break						
16:00	Invited Speaker (Room G.07)  Chair: Mark Hartswood	Lilian Edwards, University of Strathclyde, Glasgow	Policing and Social Media Surveillance: Should We Have any Privacy in Public?				
17:00	Wrapping up -17:30 (Room G.07)						
18:00 - 19:30	Invited Speaker (Room G.07)  Chair: Charles Raab	Matthew Collings and Jules Rawlinson	Requiem for Edward Snowden – extracts and Q&A	On the session: Presentation relating to their audio-visual performance that addresses security, loss of faith and personal sacrifice in a world where we are totally reliant on electronic communication and daily routines in which our privacy is routinely compromised. They will discuss how the themes have been interpreted, interwoven and portrayed as an audio-visual narrative that incorporates electronic sound, acoustic instrumentation and live visuals.			
Wednesday, 19 August, 2015							
09:00	Invited Speaker (Room G.07)  Chair: Jaap-Henk Hoepman	Anja Lehmann, IBM Research – Zurich	Cryptography for People				
10:00	Coffee break						
10:30	Sessions 9+10	S9 (Room G.07): Workshop PET Maturity		S10 (Room 4.31/4.33): Applications Chair: David Aspinall			

		Jaap-Henk Hoepman, Radboud University // Marit Hansen/Meiko Jensen, ULD // Stefan Schiffner, ENISA	Workshop on Assessing PET Maturity	Pawel Kamocki, Jim O'Regan, and Marc Stauc	All your data are belong to us. European Perspective on Privacy Issues in 'Free' Online Machine Translation Services		
				Ruba Abu-Salma	Secure and Private Chat for Everyone		
				Saffija Kasem-Madani and Michael Meier	Definition of Availability Policies for Data Pseudonymization Using XACML		
12:30	Lunch						
13:30	Sessions 11+12	S11 (Room G.07): Surveillance Chair: Gerrit Hornung		S12 (Room 4.31/4.33): Identity Management Chair: Leonardo Martucci			
		Andreas Haggman	The Problem with Curtains	Salameh Abu Rmeileh and Esther Paloma	Rethinking Attribute Assurance		
		Anouk Mols	"Not interesting enough to be followed by the NSA". A frame analysis of privacy attitudes in Dutch public debates	Jessica Schroers and Pagona Tsormpatzoudi	Liability of the Relying Party in e-government in case of identity theft		
		J.M. Porup	An Open-Air Prison: A Psychological Case Study of a Journalist Under Surveillance	Brinda Hampiholi and Bart Jacobs	Trusted self-enrolment for attribute-based credentials on mobile phones		

		Felix Bieker	The Investigatory Powers Tribunal – Effective Judicial Oversight for a Rampant Intelligence Service?	Sean Simpson and Thomas Groß	A Survey of Security Analysis in Identity Federated Management		
16:10	Coffee break						
16:30	Invited Speaker (Room G.07)  Chair: Marit Hansen	Gerrit Hornung, Passau University	The European General Data Protection Framework – evolution, revolution, or disillusion?				
17:30	Wrapping up -18:00 (Room G.07)						
Thursday, 20 August, 2015							
09:00	Invited Speaker (Room G.07)  Chair: Diane Whitehouse	Michael Friedewald, Fraunhofer ISI and FP7 PRISMS Co-ordinator	PRISMS: Mirroring privacy and security – where the two meet and fall apart				
10:00	Coffee break						
10:30	Sessions 13+14	S13 (Room G.07): Workshop Privacy-Forum		S14 (Room 4.31/4.33): Specific PETs Chair: Stefan Schiffner			
		Andreas Baur, Tübingen University // Felix Bieker/Marit	Workshop of the Privacy-Forum: “Smart Technologies – Workshop on	Jenni Reuben, Leonardo Martucci, and Simone Fischer-Hübner	A Survey on Log Audits for Detecting Privacy Violations		

		Hansen/Hannah Obersteller, ULD // Michael Friedewald/Murat Karaboga, Fraunhofer ISI // Christian Geminn, Kassel University	challenges and trends for privacy in a hyper-connected world”	Aderonke Sakpere and Anne Kayem	Privacy Enhancing Mechanisms for Efficient Streaming Data Anonymization in Resource Constrained Settings		
				Daniel Bosk and Sonja Buchegger	Privacy-Preserving Access Control in Decentralized Online Social Networks using Anonymous Broadcast Encryption		
12:30	Lunch						
13:30	Sessions 15+16+17	S15 (Room G.07): Accountability Chair: Melek Önen		S16 (Room 4.31): Sensitive Applications Chair: Diane Whitehouse		S17 (Room 4.33): Rump Session Chair: Marit Hansen	
		Lina Jasmontaite and Valerie Verdoodt	The proposed EU accountability measures: empowering citizens or overburdening businesses?	Leonardo Iwaya, Fausto Giunchiglia, Leonardo Martucci, Alethia Hume, Simone Fischer-Hübner, Ronald Chenu-Abente, and Hans Hedbom	Ontology Obfuscation for Privacy: A Case Study on Healthcare		Rump Session with contributions from Summer School participants (to be organised during the Summer School)
		David Derler, Christian Hanser, and Daniel Slamanig	Towards Authenticity and Privacy Preserving Accountable Workflows	Marjolijn Heering	The Quantified Human: on the digitalization of measuring illness and the body		

		Isaac Agudo, Ali El Kaafarani, David Nunez, and Siani Pearson	A Technique for Enhanced Provision of Appropriate Access to Evidence across Service Provision Chains	Dusan Pavlovic	Identification of online gamblers in EU: a two-edged sword		
15:30	Coffee break						
16:00	Invited Speaker (Room G.07)  Chair: David Aspinall	Angela Sasse, University College London	There is no 'privacy paradox' – just technology that does not support users' privacy preferences				
17:00	Wrapping up -17:30 (Room G.07)						
20:00	Social Event: Workshop Dinner, Venue: Howies, Waterloo Place, Edinburgh (-22:00)						
Friday, 21 August, 2015							
08:45	Best Student Paper Award (Room G.07)						
08:55	Invited Speaker (Room G.07)  Chair: Simone Fischer-Hübner	Mark Hartwood, University of Edinburgh	Collaboration between humans and machines: Promises and Perils				
09:40	Panel (Room G.07)	Panelists: Stuart Anderson, Marit Hansen, Mark Hartwood, Michael Rovatsos, and Diane Whitehouse	Privacy and ethics: The SmartSociety initiative and its challenges				
10:45	Wrapping up / conclusion (Room G.07)						
11:00	End of the Summer School; lunch for people who don't have to leave already
